Bed Bug Treatment Preparation Sheet

- Owners and occupants will need to assist the professional in important ways. Affording access for inspection and treatment is essential and excess clutter should be removed.
- Vacuum flooring and carpets; Remove and dispose of bag outside of the home after vacuuming.
- Remove bedding, sheets, etc. from all of the beds in the structure, wash in hot water and tumble dry in hot dryer to at least 120 degrees F.
- Repeat the previous step for clothing, especially those exposed to affected areas, but all clothing if possible.
- Place all pillows (including throw and couch pillows) in the dryer and tumble at 120 degrees F. for at least 20 minutes.
- Remove and launder moveable rugs; I.e. bathroom rugs, area rugs etc.
- Repair cracks in plaster and glue down loosened wallpaper to eliminate bed bug harborage sites. Remove and destroy wild animal roosts and bird nest when possible.
